Test received: 12-05-2017

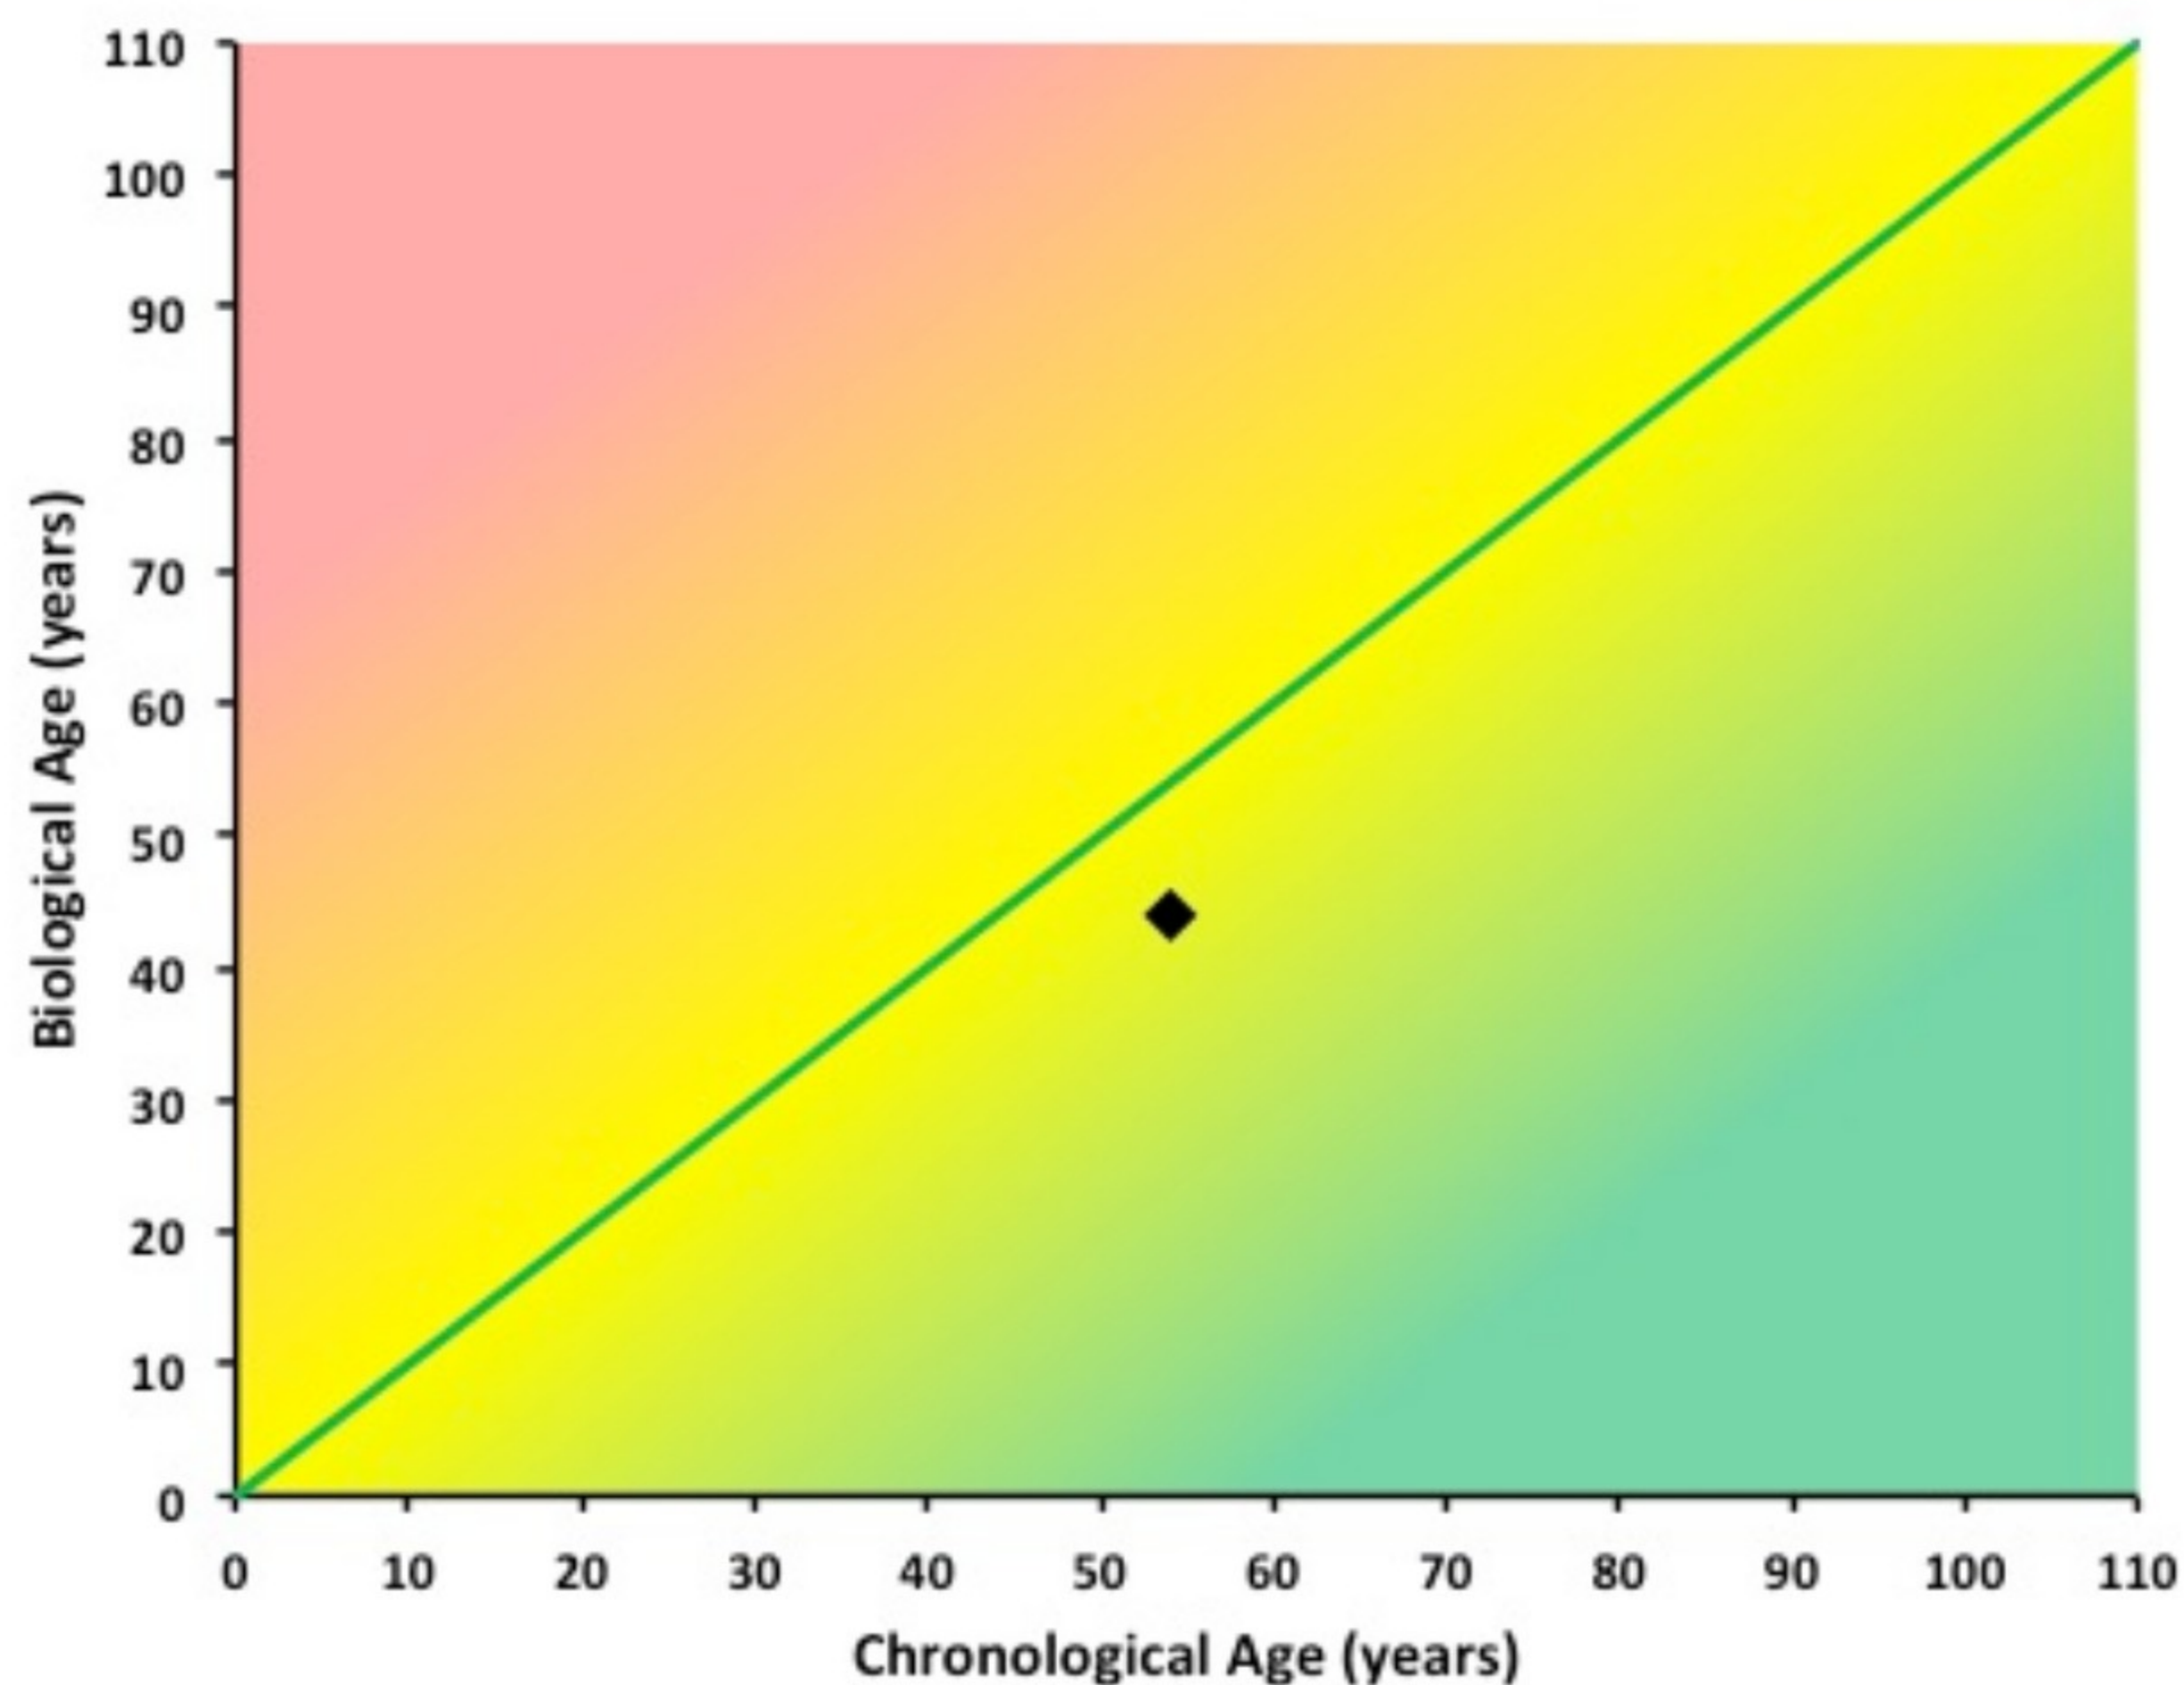

What is TruAge Test:

TruAge Test is the epigenetic test that calculates the biological age of individuals by analyzing the DNA methylation profiles of several locus in human genome as a biomarker of the aging process. The TruAge test is highly reflective of age-related changes in metabolism, physiology, and most importantly - lifestyle.

Your Biological Age (years)

48

You are 6.17 years younger than your thought

trume
